

Faster Shoes

Kris Allen

Always looking for a reason to leave
Always finding something wrong with the season
Your heart has just been hiding from the truth
Like a circle always ready to spin
Got that green light go all over your skin
But the world is never gone, they'll cut you loose

No matter where you go or what you do
It's gonna be there waiting

You keep running away
You keep running away
You keep running away
You're gonna need some faster shoes
When you keep running away
You keep running away
You keep running away
You're gonna need some faster shoes
'Cause it's always gonna catch up to you

To turn the pages but the words stays the same
Rearranging all the furniture to cover the stain
Well that's not how you make it go away
Well the problem never changes

You keep running away
You keep running away
You keep running away
You're gonna need some faster shoes
When you keep running away
You keep running away
You keep running away
You're gonna need some faster shoes
'Cause it's always gonna catch up to you

You can keep spending your money on a one-way trip
But you're never gonna be able to outrun this

You keep running away
You keep running away
You keep running away
You're gonna need some faster shoes
When you keep running away
You keep running away
You keep running away
You're gonna need some faster shoes
'Cause it's always gonna catch up to you
