

Just Like Snow

Kris Allen

There was a landfill just a little ways out of town
I had to go there once
The man working there, he said it ain't much to look at
But you should see it when the snow falls
It's a winter wonderland

Oh, you're just like snow
Oh, you're just like snow

I went walking once in the hills of Arkansas
There was a winter storm
Pretty soon I was lost, so I turned around
Started following my tracks, yeah they led me back

Oh, you're just like snow
Oh, you're just like snow
Yeah, you're just like snow
Yeah, you're just like snow

Da dut da da
Da da da dut da da...

I've got a while to wait
But you could calm my heart
You're a snowflake
You're one of a kind
You should watch you sleep
You don't make a sound
Like snow on the ground

Oh, you're just like snow
Oh, you're just like snow
Yeah, you're just like snow
Yeah, you're just like snow
