

Land of Smiles

Kris Allen

Charcoal eyes
Fill this night
Hope they don't see through mine
And they're telling me I've gotta leave
But I don't, I wanna stay
There's so much more for me

In the land of smiles
In the land of smiles

Familiar faces fill my mind
Pray they don't leave with the tide
And I don't think they know
Oh, just what they've done
Deep within my soul

In the land of smiles
In the land of smiles

I close my eyes and I'm there
In that place, my skin is so fair compared
And as I lay here, I'm asking my dreams
To take me back to the place that I have seen

The land of smiles
