

# Tough Pill

Kris Wu

As soon as I hit the streets  
People won't look out for me  
I'm trying to live it at the modest  
Not the typical thing that you see  
When I'm moving fast  
I camouflage  
Getting tied up in the high seat  
I got my own  
I can't be cloned  
Imma set the tone  
In the darkest hour  
You won't see no stars like this  
No one's raising the bar like this  
And if you doubt it  
Put a mile in  
Send them round  
Asking if they know me, yeah yeah  
Sometimes I just wanna be alone

Two cents you can keep the change  
Penny for your thoughts  
Imma stay the same  
Try to poke at me, on the go  
Wanna catch you slippin' on em like a game  
Tell em I'm the man ordinary  
Extraordinary guess now you know  
Restaurants just the talk about me, go on, talk about me cause as long as it  
's show

Truth can be a tough pill to swallow  
Somebody feign, make a mess, so shallow  
Take a chance on me like a hallow  
Oh yeah  
Yeah  
Truth can be a tough pill to swallow  
Somebody feign, make a mess, so shallow  
Take a chance on me like a hallow  
Oh yeah

Fans on fans  
Taking pictures all day  
Brought to the crib  
People in my driveway  
All these new faces man I don't know, yeah  
Got me up and down like a roller coaster  
I've been on the road  
Gettin' to the money  
What you want me to do

Walk in my shoes  
Life chose me  
I ain't have to choose

Two cents you can keep the change  
Penny for your thoughts  
Imma stay the same  
Try to poke at me, on the go

Wanna catch you slippin' on em like a game  
Tell em I'm the man ordinary  
We extraordinary guess now you know

Oh yeah
