

# Fear Not

Kristene DiMarco

When life piles up and you're feeling overcome  
Stand still and believe, I won't let you drown  
When a cry's in your throat, watching all the waves below  
Lift your eyes to the sky and trust that I won't pass you by

Fear not  
If I could say it any louder, I would  
Fear not  
If I could say it any louder, I would

Let me show you what I see  
You can't dream too big for Me  
So get up, get on your way  
We've got things to do today

Fear not  
If I could say it any louder, I would  
Fear not  
If I could say it any louder, I would  
(I would, yeah, I would, yeah)

Remember all I told you, remember all I said  
When the questions start arising, keep your eyes fixed straight  
ahead  
Hold on tightly to the promise, hold firmly to the truth  
That I love you, oh I love you

Fear not  
If I could say it any louder, I would  
Fear not  
If I could say it any louder, I would  
(I would, yeah, I would, yeah)  
Fear not  
If I could shout it any louder, I would  
Fear not  
If I could shout it any louder, I would  
(I would, yeah, I would, yeah)
