

Here in the night and beyond the stars
You bring us hope much stronger than ours
Lifting our heads and healing our lives
Taking our pain as we lift our eyes

Oh-oh, Your death made a way
Oh-oh, We overcome by Your name
Oh-oh, We're free in Your grace
Oh-oh, You are mighty to save

When faith is a fight
When mountains are real
You lift us up; in Your light we will heal
As victors we sing of death swallowed whole
And all that we hope will be all we know

Oh-oh, Your death made a way
Oh-oh, We overcome by Your name
Oh-oh, We're free in Your grace
Oh-oh, You are mighty to save

Oh-oh, Your death made a way
Oh-oh, We overcome by Your name
Oh-oh, We're free in Your grace
Oh-oh, You are mighty to save

Our God is mighty!
Our God is mighty!
Our God is mighty!
Our God is mighty to save

Our God is mighty!
Our God is mighty!
Our God is mighty!
Our God is mighty to save

Oh-oh, Your death made a way
Oh-oh, We overcome by Your name
Oh-oh, We're free in Your grace
Oh-oh, You are mighty to save
