

Can't Fix

Kristian Bush

Ice maker ain't making
AC's on the fritz
Lately everything's breaking
Like a windshield baby
Feel the glass cracking inch by inch
I got 52 problems hitchhiking on my problems
But I know what the problem is

Ain't nothing that a beach can't fix
Let's get where you kiss me with those sunburned lips
My wish got me floating like waves on the water
Cold curves in the bottle
Taking everything off of my list
Even if a earthquake shaking
Or a volcano's waking up
Can't be breaking up a vibe like this
Ain't nothing that a beach can't fix, can't fix
(Hey!)

Can't fix, can't fix
Can't fix, can't fix

You take the world off baby
You turn the sunshine on
I like me better when you're happy laying next to me
Laughing, laid back and we're lawn chair gone

Ain't nothing that a beach can't fix
Let's get where you kiss me with those sunburned lips
My wish got me floating like waves on the water
Cold curves in the bottle
Taking everything off of my list
Even if a earthquake shaking
Or a volcano's waking up
Can't be breaking up a vibe like this
Ain't nothing that a beach can't fix, can't fix
(Hey!)

Can't fix, can't fix
Can't fix, can't fix
Can't fix, can't fix

Ain't nothing that a beach can't fix
Let's get where you kiss me with those sunburned lips
My wish got me floating like waves on the water
Cold curves in the bottle
Taking everything off of my list
Even if a earthquake shaking
Or a volcano's waking up
Can't be breaking up a vibe like this
Ain't nothing that a beach can't fix, can't fix
(Hey!)

Can't fix, can't fix
Can't fix, can't fix
Can't fix, can't fix
(Hey!)

Can't fix, can't fix
