

# First Glass Of Wine

Kristian Bush

I'd give anything to make this day stop talking  
And make this job stop taking more than it gives  
Sometimes it feels like I might just start walking  
Convince myself, this ain't no way to live

Lord get me to the first glass of wine  
And I promise you from now on every time  
That I raise that bottle up  
I will follow it up  
With the greatest prayer for you that I can find  
Lord if you can get me to the first glass of wine

Lord please grant me all the patience  
To know that I can't change my lover's mind (Lover's mind)  
That no matter what the trouble  
That I won't pour a double  
I swear that I'll just go one at a time

Hey lord get me to the first glass of wine  
And I promise you from now on every time  
That I raise that bottle up  
I will follow it up  
With the greatest prayer for you that I can find  
Lord if you could get me to the first glass of wine

And I promise by the second one  
I'll turn the other cheek  
And by the third one I'll come to see you every single week  
And if there's a fourth one I will get down on my knees  
Lord if you just get me to the first glass of wine

Come on play

Hey lord get me to the first glass of wine  
And I promise you from now on every time  
That I raise that bottle up  
I will follow it up  
With the greatest prayer for you that I can find  
Lord if you can get me to the first glass of wine

Amen
