

Let It Be Me

Kristian Bush

If you're gonna blow a kiss to a stranger
In a parade as it rolls by
If you need somebody to lift you up
Off the ground to feel alive
If you're gonna break all the hearts in your past
That you made skip a beat
'Cause you're looking for one to set you free

Let it be me
That can wrap you up in the dark
'Til the sun drips through that door
Let it be me
That can hold the whole world back
When you can't take it anymore
Let it be me
That gets to feel your skin
The only name you're whispering
I can save you girl
You can save me back
Let it be me

If you're gonna pick one forever
And your heart needs a new tattoo
Someone to walk beside you
No matter what you're walking through
If you're looking for a shoulder
Lay your head down after work
Someone to turn you on 'til you're dizzy
Make you laugh until it hurts

Let it be me
That can wrap you up in the dark
'Til the sun drips through that door
Let it be me
That can hold the whole world back
When you can't take it anymore
Let it be me
That gets to feel your skin
The only name you're whispering
I can save you girl
You can save me back
Let it be me
Let it be me

Oh oh oh oh
Hold me close
And slip into my arms
Oh oh oh oh
All I know
Is if you want somebody to fill your sky with stars

Let it be me
That can wrap you up in the dark
'Til the sun drips through that door
Let it be me
That can hold the whole world back
When you can't take it anymore

Let it be me
That gets to feel your skin
The only name you're whispering
I can save you girl
You can save me back
Let it be me
Let it be me
Oh let it be me
Let it be me
