

## Make Another Memory

Kristian Bush

If you lean in I'll lean back  
Don't be scared of love going this fast  
Cause every day with you's a dream  
And I always remember the whole damn thing

Hey, baby let the world go round  
You can spin it on your finger I'll slow it down  
Count the stars above 'til we fall asleep  
Then wake up and make another memory

Well you laugh and I smile  
And time stands still for a just little while  
And in the moments in between  
I fall into you and you fall onto me

Hey, baby let the world go round  
You can spin it on your finger I'll slow it down  
Count the stars above 'til we fall asleep  
Then wake up and make another memory

Hey, baby

If you throw a spark I'll blow on the flame  
If you, you need a storm I'll bring on the rain  
We're like two hearts on a runway running  
With our arms out to the wind

Hey, baby let the world go round  
You can spin it on your finger I'll slow it down  
Count the stars above 'til we fall asleep  
Then wake up and make another memory

Hey, baby let the world go round  
You can spin it on your finger I'll slow it down  
Count the stars above 'til we fall asleep  
Then wake up and make another memory

Hey, baby  
Hey, baby  
Hey, baby
