

Put A Smile On It

Kristian Bush

Hey, you look like you could use a little love
Right now
It's never too late to turn your day back around
If you put a smile on it

I've been there, I know it's hard to stop
Once you get started
You just keep movin' and choosin' and provin' to the world
That you still got (Yeah, you got it)

Just put a smile on it, crank the dial on it
Roll the windows down and put some miles on it
You can count on it when you're down on it
And life gets a whole lot better
When you put a smile on it
Put a smile on it

Hey, your lipstick's off and your new mascara's
Runnin' down
You gotta fake it to make it and take it off
'Cause you don't really need it anyhow (Yeah, you got this)

You put a smile on it, crank the dial on it
Roll the windows down and put some miles on it
You can count on it when you're down on it
And life gets a whole lot better
Once you put a smile on it
That's right, play that up

It's another lesson learned
When you feel your luck has turned
And you know you're gonna crash and burn
If you want a little style on it
Just put a smile on it
Yeah, ha
Ooh-ooh-ooh
Ooh, ooh-ooh-ooh

You put a smile on it, crank the dial on it
If you wanna sing along, baby, I'm on it
You can count on it when you're down on it
And life gets a whole lot better
When you put a smile on it
Just put a smile on it (Put it on)

Ooh, ooh-ooh-ooh
Ooh, ooh-ooh-ooh
