

# Crooked

Kristin Hersh

hold the flashlight under your chin closer as the lights dim

you lonely doll you lucky dog you free fall down to the living  
room closer as the lights dim

spread the glitter on your pillow count your blessings on your  
fingers crawl your way back down the stairs down to the living  
room closer as the lights dim

glittering in lazy boys and christmas lights glittering then fo  
und a dark body to the right and crooked
