

Back in the Day

Kristinia DeBarge

Take me to the days, not too far back (oh yeah)
Always be my baby (yeah) [?] all that
Write a letter to him, did he write back? (oh yeah)
Speaking on the phone (yeah) behind my daddy's back

Oh, I miss the days you'd wait to kiss me
Didn't think it's lame to say you missed me
Maybe I'm insane to think that maybe
I could have a love like back in the day

(Back in the day, back in the day)
We were together like Bobby and Whitney
Need our love like back in the day
(Back in the day, back in the day)
Get on his nerves like Lucy and Ricky
Need our love like back in the day
(Back in the day, back in the day)
Want him to chase me like Mickey and Minnie
Need our love like back in the day
(Back in the day) back in the day
(Back in the day) back in the day
(Back in the day) yeah
(Back in the day)

Feed me love when, when I'm starving (oh yeah)
Play the slow jams (yeah) Prince and Marvin
At the drive-in, let the seat back (oh yeah)
Miss the whole movie (yeah) yeah, like that

Oh, I miss the days you'd wait to kiss me
Didn't think it's lame to say you missed me
Maybe I'm insane to think that maybe
I could have a love like back in the day

(Back in the day, back in the day)
We were together like Bobby and Whitney
Need our love like back in the day
(Back in the day, back in the day)
Get on his nerves like Lucy and Ricky
Need our love like back in the day
(Back in the day, back in the day)
Want him to chase me like Mickey and Minnie
Need our love like back in the day
(Back in the day) back in the day
(Back in the day) back in the day
(Back in the day) yeah
(Back in the day)

Back like two, three
[?] four, five like it was '96, yeah
Back like woods, I break it up
That grape taste just like this, yeah
Pull your hair in third grade
When I pull it now, you shake
That's the kinda love we make
Pebbles on your windowpane, yeah

We had a thing like magic
Stretch you out, gymnastic
Call me Mr. Fantastic
Make [?]
Take [?] on a school
Fuck you back to the future
You scream like, ooh
Girl I do it [?]

(Back in the day, back in the day)
We were together like Bobby and Whitney
Need our love like back in the day
(Back in the day, back in the day)
Get on his nerves like Lucy and Ricky
Need our love like back in the day
(Back in the day, back in the day)
Want him to chase me like Mickey and Minnie
Need our love like back in the day
(Back in the day) back in the day
(Back in the day) back in the day
(Back in the day) yeah
(Back in the day)
