

Axx Attack

Krokus

I see you fighting for God and your country
The reasons, they don't make sense in my mind
Money will stand tall for those who were killed
Fighting in wars they should never have fought

Communication came to your door
But you just left it to die on the cold floor
How can you sleep in the night?
Damn those dead lies

Axx Attack - The axe is back!
Axx Attack - The axe is back!
Aaaah!

Blood of the innocents stains on your hand
Victims of madness controlling the land
Those without sin cast the first stone
Just wanna rock, so leave us alone

Communication came to my door
Opened my heart up, I needed some more
How can you sleep in the night?
Damn those crazy lies

Axx Attack - The axe is back!
Axx Attack - The axe is back!

Communication came to your door
But you just left it to die on the cold floor
How can you sleep in the night?
Damn those dead lies

Axx Attack - The axe is back!
Axx Attack - The axe is back!
Axx Attack - The axe is back!
Axx Attack - The axe is back!
Ouh! Ouh! Ouh! Aaaah!
