

## Come On

Krokus

We're gonna hit your lazy town  
With amazing sounds  
Everybody's hot to get this noise  
Good evening ladies & boys  
We fly into the rising sun  
With your body & soul  
Everyone of us has all we need  
No limit in turn and speed  
Come on, come on to the place where the evil dies  
Come on, come on to the stage in the other skies  
It saves my life, it makes me cry  
No need to die  
High energy the key of life  
Nobody kills my drive  
Another day, another place  
Make-up on my face  
It makes me turn and wonder why  
I'm living in a rock'n'roll sky  
Come on, come on to the place where the evil dies  
Come on, come on to the stage in the other skies
