Krokus

Here we go

Running on the highway road  
Gimme love dream to come  
And you can try whatever you want  
There's nothing gonna change my mind

Hey rock around  
That's all are here my friend  
Hey rock around  
That's all are here my friend

Highway  
Highway

Here's we're gonna hang around  
Then open triumph up here  
Running on the highway road  
Straight ahead to you all

Hey rock around  
That's all are here my friend  
Hey rock around  
That's all are here my friend

Highway  
Highway

(SOLO)

Running on the highway road  
Gimme love dream to come  
And you can try whatever you want  
And nothing gonna change my mind  
Yes we're gonna hang around  
But now better triumph up here  
Running on the highway road  
So keeping your dreams to come

Hey rock around  
That's all are here my friend  
Hey rock around  
That's all are here my friend

Highway  
Highway  
Highway

Highway
