Let It Go

Krokus

You're in trouble and you need to find a clever way out
On the double, as time is running out
Look around, it seems your world is falling apart
Just hold on to the dreams you have to start

Fighting for your way, you got to pay
Working for that day, pile all your troubles away

Let it go, all the way, let it go
Let it go, all the way, let it go

You're in trouble, got some bad bad things on your mind
On the double, sweet sixteen on the line

Fighting for your way, you got to pay
Working for that day, pile all your troubles away

Let it go, all the way, let it go
Let it go, all the way, let it go

It seems like your world is falling apart
Just hold on to the dreams you have to start

Fighting for your way, you got to pay
Working for that day, pile all your troubles away

Let it go
Let it go

Let it go, all the way, let it go
Let it go, all the way, let it go
Let it go, all the way, let it go, yeah
Let it go, all the way, let it go
Let it go
Let it go
Let it go
