She's Got Everything

Krokus

I can see by your eyes what you need
I'll be out of your life
I may get depressed 'cause I tried so hard
To be something special for you
Words of love that are still in my ears
Days when I kissed your tears
Long crazy nights spilling into days
Times when I lost my fears
She's got everything I need
And it's driving me insane
She's got everything I need
Makes me smile and makes me weep
Love needs a heart and I need to find
If I was treating you right
Angels and sailors, rich girls and us
Are searching for true love tonight
She's got everything I need
And it's driving me insane
She's got everything I need
Makes me smile and makes me weep
She's got everything I need
And it's driving me insane
She's got everything I need
Makes me smile and makes me weep
Makes me smile and makes me weep
Makes me smile and makes me weep
Makes me smile and makes me weep
