They say that money rules the world Please excuse me but I must agree It has the power, makes the planet turn It could set your life free, yeah I hate to give you the bad news The clock is tickin' away And she's your own mother nature Pays at the end of the day! Can you accept that your time is up? We've gotta stop it while we can!!! We're livin' in a mad world And that's the bloody truth We're livin' in a bad world Good luck to me and you Lost in a dream of virtual reality A battle-film and some booze Ain't got no time for ecology (what's that?) Like we've got nothing to lose, yeah We all can profit from a healthy planet But greed and power seem to rule!!! Set it free, set it free! Forget your nature and she'll forget you Take it away boys Good luck everybody... Sleep tight, tonite!
