

Re Mind Yourself

KRS-One

Remember yourself
Put yourself back together
Re Mind Yourself

Sit back relax and reacquaint yourself
Get back to that original
Primitive savage naked self
Brace yourself
Recreate yourself
Make yourself
For too long
You've been taught to hate yourself
Man don't forsake yourself
Re awake yourself
Take yourself much higher
History's not our story
Man the Devil is a liar
Listen to nothing
The outside world says about you
The world is made to reroute you
Distract you and then doubt you
Most these rappers bout the world
KRS is about you
So remember what I taught you
About how the 'in' and the 'out' do
Go inside your inner city quickly going in you
Have an interview with that energy that's within you
Ask yourself: why you?
Why now? why here?
Then it becomes quite clear
You are divine you should not fear
Bills, you should not fear
Thrills, you should not stare
Focus your attention on G-O-D which is right here

Re Mind Yourself
Put Yourself Back Together

Re Connect
Yeah Yeah Yeah Yeah
Listen!

No-one's ever gonna tell you that you are divine
Cuz they ain't reached that mind in all this time
They still are blind
They tell you get in line
Follow them and look for signs
Man that's baby milk
Here's the raw meat
Yo it's cookin' time!
It's the way in which you look at brain and look at mind
You thinking they the same but if you look again you'll find
The whole design of nature is really from a gifted mind
A divine mind, outside of what we call space and time
This divine mind is what creates brains, hearts and livers
This divine mind produces butterflies from caterpillars
And everything that quivers

Brains don't make brains
The process of birth does
I'm telling you: life is a game
With it's own mind, it's own name, and it's own aim
It's simple and plain
Divine mind produces all brains
You are a divine mind first, which then produces your brain
Divine intelligence or God, that's from which you came

Remember Yourself
Put Yourself Back Together
Re Mind Yourself

The word Christ is an African word: K-R-S-T
Then the Greeks later on took that up
Romans they called Christus
It is first appears in African, KRST
The concept of the Christ
The eighth form, the seven stages or forms of man
Which then become the supreme, divine form, the Christ
And you have Christianity before Christ
The idea, the concepts, even the words, even the images
The Virgin birth, the Three Kings
Those are Egyptian ideas
Those were the three great stars on the pyramid
The three Kings
They then became the three powers on Earth that came to worship the Divine form
It's all there
It's on the temples of Lao Tzu before the birth of Jesus
