C'mon, gather round now, gather round now, look now How many times did you pre-meditate what you thought was your fate, cause you couldn't just wait You had to have it the way that you thought in your mind But in the end, everything came in time But before the time, you was losin your mind You was racin and rushin and fallin behind But let me tell you bout God and the way that She works I mean the way that He works, I mean the way that We work You gotta trust in your Lord, everything is in accord Don't rush or fuss, you gonna get yours Close your eyes, your heart, your ears, your mind to the ways and thoughts of mankind And seek ye first the Kingdom of God And things won't seem so hard You gotta trust your Lord, uhh, uhh.. tell 'em bout

Trust and obey, trust when afraid
Trust when you paid, trust when betrayed
Trust when you fear, trust when you unclear
Trust when you here, trust when you near
Trust when you down, trust when you found
Trust when you clown, trust

C'mon, let's do it again, uh, uh Let's raise it up, c'mon, look

After you live and you learn then you see You will learn how to trust in your G-O-D You will be so free, you won't see no me You will only see the will of the almighty You sick of what? Well ya will, give it up Stop thinkin and begin to, live it up Everytime you think it's one way it's not Everytime you wanna start you really stop Trust in the inner the outer is for the sinners In fact this whole rap is for beginners Those that have talked and walked upon the path Know that they get what they want before they act So why rush, if your respect is due Whatever you DON'T have is protectin you Here's what you DO have that be bringin the drama Ask and it shall be given, with a comma

You trust in her, trust in him, trust in them, and then Trust in men, trust in sin, trust in friends
You trust in her, trust in him, trust in them, and then Trust in men, trust in sin, trust in friends

Uh uh, soundin good, soundin good, look, look
So when will you be it, when will you see it
That thoughts and things they manifest when you decree it
But God be lookin out for you
Puttin a stop to what you're about to do
In your life, and in your circumstances
Everytime you speak you be takin chances
Talkin bout things that you really don't have to have

So when you get 'em, your life turns sad

Your life turns bad, now why would your God be allowin that?

Trust in God, that's where the crown is at

It's not in what you get, it's what happens after that

So if you think your life is shrinkin

It may be cause you keep thinkin

Not that intellect is wrong

It's just the beginning, it might be time to move on
