Get The Hell Out Of My Way

Krypteria

You think you finally made it
That you escaped eternal fire
And you're about to save your
Oh-so-precious life
But you will die
Soon your lifeless body will be dragged
Through mud and slime

I'll eat your worthless little soul
At the gates of hell tonight
And you will die,you will die,you will die
Burn in hell forever

Better get the hell out of my way
Better say your prayer cause darkness is coming
You will not see another day
Get the hell out of my way
Better say your prayer cause darkness is coming
My bloodstained reign is here to stay
I'm coming for the prey

I guarantee cold shivers will be
Running down your spine
Don't turn around cause I'm closing
In from behind
And you will die
How do you dare and try to fool the evil king
Your time has come your chances are running
Precariously thin
And i will win,i will win,you will die,burn in hell forever

Better get the hell out of my way
Better say your prayer cause darkness is coming
You will not see another day
Get the hell out of my way
Better say your prayer cause darkness is coming
My bloodstained reign is here to stay
I'm coming for the prey
