

Soul Sacrifice

Kryptor

Through corridors of darkness
I walk into dim twilight
inside a dark underground maze.
The distance seems an empty abbyss
the horizon disappears behind poisoned clouds
damnation earthworks and walls of sooth
gigantic buildings of shadows in despair
angels are suffering humbled in dust
deafened by unholy stormwinds of misery.
Diabolic daughters in suicidal lakes
chanting their gospels on desecrated ground.
Black mass celebrates perversity orgies
upon insulted symbols of heaven
hot sperm streaming on young virgins' purity
passion of blood writhing in ecstasy.
Altars of lesbian love surrounded by unholy haze
wanton bodies of satanic sluts collide with the goat
infernal echoes penetration
bestial prayers recitation!
The soul is trembling with impure dizziness
like a condemned in a deathrow before dawn
bursting with the power of unleashed energy
into the freezing fire of broken dreams.
Dirt and disgust are rushing through the night
into the stiffling air of expanding hellish noise.
