

# My Religion

Krystal Harris

There's nothing wrong  
With tradition  
But tell me where it says  
Not to follow our hearts  
That's why so many  
Of us are so confused  
And will never live  
Up to your rules

[CHORUS:]  
My religion doesn't hate  
It'll never turn you away  
It always understands  
My religion won't condemn  
Always lends a healing hand  
It's love  
My religion's love

All it takes is to be willing  
To sacrifice for  
Someone who is in need  
Then we can begin  
To heal again  
And love will  
Sweep the land

[Repeat chorus]

My religion  
My religion  
Love  
My, my religion  
My religion  
It's love

That's why so many  
Of us are so confused  
And will never live  
Up to your rules

[Repeat chorus twice]

My religion's love
