

I Got You

Krystal Keith

Sometimes you set your mind
Dig your heels and jump in blind
That's when I step in, I got you
Sometimes your master plans
Don't pan out and when it hits the fan
It's me again, superglue in hand
I got you

Like June had Johnny and Bonnie had Clyde
Both had a woman standing by their side
Always getting 'em out of whatever they got themselves into
So you do you, go do you thing
I'll be the woman behind your cave
Be the superman these [?] don't you
Baby I got you

Sometimes when the tables turn
To the rescue, roles reverse and
You're the one telling me I got you
But let's be honest you're the king
Of "I can do it" when [?]
But every Joker needs a Queen
And I got you

Like June had Johnny and Bonnie had Clyde
Both had a woman standing by their side
Always getting 'em out of whatever they got themselves into
So you do you, go do you thing
I'll be the woman behind your cave
Be the superman these [?] don't you
Baby I got you
I got you

Like June had Johnny and Bonnie had Clyde
You got me sitting by your side

Like June had Johnny and Bonnie had Clyde
Both had a woman standing by their side
Always getting 'em out of whatever they got themselves into
So you do you, go do you thing
I'll be the woman behind your cave
Be the superman these [?] don't you
Baby I got you
Baby I got you
I got you
