

# Make Some Noise

Krystal Meyers

Yeah, you're so convinced of how it's supposed to be  
I know that you're confused  
Don't take it out on me  
We're not afraid to try  
We're not afraid to dream  
But when it all goes wrong we're not afraid to scream  
'Cause the future now is ours to make  
Oh, Oh, Shout it out

Get ready 'cause we like it loud  
'Cause we were born to make some noise  
Don't tell me we should turn it down  
'Cause we were born to make some noise  
Make Some Noise  
Make Some Noise

We're not the enemy  
You might be surprised  
Don't need hypocrisy to open up our eyes  
We don't need your rules  
Don't need a uniform  
This is who we are  
We won't be ignored  
'Cause the future now is all that remains  
Oh, Oh, Shout it out

Get ready 'cause we like it loud  
'Cause we were born to make some noise  
Don't tell me we should turn it down  
'Cause we were born to make some noise  
Nobody's gonna shut it down, yeah  
'Cause we were born to make some noise  
We could turn this whole thing around  
Come on all you girls and boys  
Make Some Noise  
Make Some Noise  
Make Some Noise

Just for once (just for once)  
Can you think for yourself (can you think)  
Stuck in the same place  
We don't have anytime to waste
