

## Around The World

Kshmr

I've been around the world, I needed you to know  
All around the world, I never thought I'd go  
This far around the world, I needed you to know  
I've been around, I had to find my way back home

Show respect  
When asking for the moon  
Step by step  
Close enough to touch the moon

Deep inside, we know we can make it right  
I believe in you and me, let's give a try  
Together, we can make some changes for the years to come (Toget  
her)  
That's when we'll be calm

I've been around the world, I still learn every day (Every day)  
This world is precious, so I think that we should care (I think  
we should care)  
I've been around the world, I still learn every day (I love it  
every day)  
My life is beautiful, but dying day by day

Be grateful, you live, you learn  
You like to buy, spend some money, money  
Be grateful and look around you  
I am just asking you to be thankful

Around the world, I needed you to know  
All around the world, I never thought I'd go  
This far around the world, I needed you to know  
I've been around, I had to find my way back home

(No, no)  
Been around the world, around the world  
Been around the world, around the world  
Been around the world, around the world  
Been around the world, around the world
