

My Best Life

Kshmr

There's always someone with more money
Someone who goes to better parties in a fast car
I wanna be someone with no worries, ooh
Not just someone who does a show and keeps up a first sight

Oh oh oh oh, you used to get me down
But now I know what's real

I'm living my best life
I don't know where it's taking me and that's fine
At least this what I'm making, so I don't mind, oh no
No I don't mind, oh no
'Cause nobody ever makes it out alive
So I'm living my best life

Got to get up, I'm living my life
Keep my head up, I'm living it right
Got to get up, I'm living my life

I put myself before my dollars
'Cause if I fake it 'til I make it, all I made is a frown
Ain't gonna waste time on no bad faking, no
Being me is easier than being something I'm not

Oh oh oh oh, you used to get me down
But now I know what's real

I'm living my best life
I don't know where it's taking me and that's fine
At least this what I'm making, so I don't mind, oh no
No I don't mind, oh no
'Cause nobody ever makes it out alive
So I'm living my best life

Got to get up, I'm living my life
Keep my head up, I'm living it right
Got to get up, I'm living my life
Keep my head up, I'm living it right

Got to get up, I'm living my life
Keep my head up, I'm living it right
Got to get up, I'm living my life
Keep my head up, I'm living it right

(Got to get up, I'm living my life)
You used to get me down
(Keep my head up, I'm living it right)
But now I know what's real

I'm living my best life
I don't know where it's taking me and that's fine
At least this what I'm making, so I don't mind, oh no
No I don't mind, oh no
'Cause nobody ever makes it out alive
So I'm, I'm living my best life

Got to get up, I'm living my life

Keep my head up, I'm living it right
Got to get up, I'm living my life
Keep my head up, I'm living it right

Got to get up, I'm living my life
Keep my head up, I'm living it right
Got to get up, I'm living my life
Keep my head up, I'm living it right

Got to get up, I'm living my life
Keep my head up, I'm living it right
Got to get up, I'm living my life
Keep my head up, I'm living it right
