

Scare Me

Kshmr

They say you should stay away from villains
But I don't really see the fun in that
They told me you'll never learn your lesson
But they don't know I took a different class

He keeps me dancing on my toes
Leaves me hungry wantin' more
And I love the rush (Ah)
Always unpredictable
But there's one thing that I know
That our love is urge

I'm falling for the monster, he keeps me up at night
Now my days are numbered
Til' I lose my mind
I'm falling for another, stealin' all my time
I can smell the danger, danger
That he don't scare me

He don't scare me

They say you should stay away from villains
But I don't really see the fun in that
They told me you'll never learn your lesson
But they don't know I took a different class

He keeps me dancing on my toes
Leaves me hungry wantin' more
