

# The World We Left Behind

Kshmr

Om sai ram

Om sai ram

We, we're all aligned  
The perfect movement  
The perfect time  
We're finding all  
The love inside  
No, we didn't choose it  
It's so divine, oh, ah-ah-ah-ah

(Here we are, we are)  
More than human (Here we are, we are)  
Fire blooming (Here we are, we are)  
Suddenly, we're not so different  
(Here we are, we are)  
Through the darkness (Here we are, we are)  
We'll keep breaking through, yeah

'Cause we are, we are one  
Can you feel  
What you can't see, but know is real?  
(We are, we are one)  
Close your eyes  
And see the world we left behind  
(We are, we are one)  
Can you feel  
What you can't see, but know is real?  
(We are, we are one)  
Close your eyes  
And see the world we left behind

(Here we are, we are)  
Can you feel (Here we are, we are)  
What you can't see (Here we are, we are)  
But know is real? (Suddenly, we're not so different)  
(Here we are, we are)  
Close your eyes (Here we are, we are)  
And see the world we left behind
