

# Underwater

Kshmr

Where do you go  
All the love's gonna keep you afloat  
When the world is told  
We'll be rowing as the fire, the cold

Underwater  
I'm gonna swim against the tide  
Underwater  
You couldn't drown me if you tried  
Underwater  
I'll be breathing by your side

I'll be breathing by your side

Underwater  
Underwater

Swim through a sea  
Full of strangers found so deep  
Speaking sparks and neon lights  
As I give you the kiss of our life

Underwater  
I'm gonna swim against the tide  
Underwater  
You couldn't drown me if you tried  
Underwater  
I'll be breathing by your side (by your side)

Breathing by your side, by your side  
I'll be breathing by your side (breathing by your side)
