Fuck it

Got a fat chick twerking call it Royal Rumble
Smoking weed, pussy popping
Still my money humble
Serve her sausage in her face like we in Benihana
I'll Let her bounce my stick like she a '64 Impala

Why you so at mad me?
Attacking the ego with jealousy
I'm tryna do this whole thing in the peace
You're busy making an enemy
I am the remedy
I do this effortless
Pay for the team cause I'm generous
Venomous people try snaking us
But I'll cut the head off the snake
Maybe film it and cake and I don't need a break
Going and going till I overtake

Fly to L.A. I don't deal with the fake
I don't care what vid you want me to make
Shut the fuck up and get out of the face
Vids blowing up like I'm dropping a shell
Drove up to Brum to see Jay and Rommel
I'm always giving I'm living champagne with the winning
I'm balling and sinning with so many women
Cooking and cooking and now she so
Cooking and cooking attention I'm hooking
Cooking and cooking I kill it with bookings
Cause I got the recipe
Oh you're not scared, then you better be
I'm in control of the destiny
This ain't a game murky weather I'm coming to rain

Got a fat chick twerking call it Royal Rumble
Smoking weed, pussy popping
Still my money humble
Serve her sausage in her face like we in Benihana
I'll Let her bounce my stick like she a '64 Impala
