

Bow Down

KSI

Uh, bow down to me
Self-doubt has been drowning me
I been doubting me
Been blind but now I see
'Cause I can't let the world miss out on me (nah)
Too special too hungry for more (Uh)
Been loyal, been ready for war (Yeah)
Been patient, been waiting before
Now it's time for my fucking applause

Ooh, I'ma show 'em what I'm made of
Just quit the day job
Don't need a label
I'm already major
Getting' that paper
Starting to make it
Special occasion
Drinking it straight, no chaser

If you're cut, I'm a different breed
Different class, make a different sleeve (Yeah)
You're you and I'm me
That's the main difference between make-believe
Different levels, we on different floors
World tours on my vision board (Board)
Taking calls but not taking yours (Nah)
Make a couple bags and I'm feeling poor

Our downtime is over (yeah, yeah)
We taking over (kill it, kill it)
Long live my soldiers (long live, ah)
Dough time like Homer (ay)
Show time, Verona (ay)

Uh, international shit
Flying over my old home
Graduated to the major leagues
I'ma treat this planet like a snow globe
Shake it up and watch the sky fall
Independent like July 4th
No more wait
'Bout to collaborate
Watch from hate and let that rain pour

I told 'em before that I ain't playin' with 'em
When they pass me the mic, go super Saiyan on 'em
Ain't nobody in my league, ain't nobody can compete
When I'm fucking up these beats
And we turnin' up the heat like

Don't ask me what loyalty means
Eight years deep, still reppin' the team
I'll be a soldier, 'til this shit's over
Never once quit or given up on the dream
Dedicated half my life to this
I forever wait and spent all night on this
I debated whether or not I would ever make it

But now I've got the torch, guarantee I'll never waste it

Our downtime is over (yeah, yeah)
We taking over (kill it, kill it)
Long live my soldiers (long live, ah)
Dough time like Homer (ay)
Show time, Verona

Our downtime is over
Now we taking over
Long live my soldiers
We fight 'til it's over
Our downtime is over
Now we taking over
Long live my soldiers
We ride 'til it's over

Bow down to me
Tell me how it feel
Just a YouTube rapper
Still I'm 'bout to make a mil
Selling twice as much as you do
Tell me, how does that feel?
I ain't never liked you and I prolly never will

I said, bow down to me
Tell me how it feel
Just a YouTube rapper
Still I'm 'bout to make a mil
Selling twice as much as you do
Tell me, how does that feel?
