Down Like That

KSI

Why you gotta go, go and let me down like that (Ayy)
Down like that
Oh why? Why you go and let me down like that? (Ayy)
Down like
I was nothin' but loyal to you right from the start
You changed up on me as soon as things start getting hard
I've always seen the light despite us being in the dark
And you let me down like that, yeah, down like that (Oh why)

Yeah, yeah, I want that knockdown
Fuck up the system, make it shut down
I'm cold with this, slow man down like Freezer (Mm)
Wanna backstab like Frieza (Mm)
Dictate death like Caesar (Mm)
Always come through with a bee (Yeah)
Got to do a lot to trouble me (Yeah)
Visionary still won't tunnel me (Yeah)
Me to you, now that will chuckle me
Devilish views when they're aiming at the profit
Emitting pain 'til you're nothing
Remember what I said when that pussy tried moving with the opps? (Woo)
Now he back with the blocks nigga

Why you gotta go, go and let me down like that? (Ayy)
Down like that
Oh why? Why you go and let me down like that? (Ayy)
Down like
I was nothin' but loyal to you right from the start
You changed up on me as soon as things start getting hard
I've always seen the light despite us being in the dark
And you let me down like that, yeah (It's the biggest in the game)
Down like that (Uh, uh)
(M-M-Maybach Music)

Phantoms in my yard, so ring around the Rolls (Skrr)
Hardest on the block, the biggest one, da boss
Helicopter pad the home of Sammy Sosa (Biggest)
Stealing all the bases, I'm the ladies token (Woo)
Bitches always bad, I'm known to blow the budgets
Meek was at the crib, so double M the subject (Ahh)
Condo got three levels, Postmate all the lunches
Flippin' all the kilos, keepin' all the grudges (Ay)

Boss

Ain't no more let-downs unless the top getting dropped
I love it at the top, my concierge don't ever stop me
You know I fuck with Ross, I even went and bought da block
A hundred million dollars strong, I really came from sellin' rocks
Championship belt, them VVSs they spark
Steal it, hit the gas and get out on the narcs
Killers move for free, I just can't pick a cost
Put the drip on market took it to the charts
Now I'm rocking with the biggest
And I'm fucking with the boss
I'm out

Why you gotta go, go and let me down like that? (Ayy)
Down like that
Oh why? Why you go and let me down like that? (Ayy)
Down like
I was nothin' but loyal to you right from the start
You changed up on me as soon as things start getting hard
I've always seen the light despite us being in the dark
And you let me down like that, yeah, down like that (Oh why)
