KSI

Duh-duh-duh  
Dah-duh-duh, duh-duh-duh-duh-duh-duh-duh  
Duh-duh-duh  
Dah-duh-duh, duh-duh-duh-duh-

Living in a past life  
Maybe it's the last time  
Heavy on the inside  
Looking for my star sign, oh  
Everything is tie-dyed (Ooh-ooh)  
I don't wanna live a lie (Ooh-ooh)  
So how am I supposed to feel alright?  
How am I supposed to get up from the feeling?

I see crowds of millions there  
All fucked up with their hands in the air  
Ready just to party like the summertime, and-  
And-  
Maybe our love is a demon unchained  
If it was the same, would you do it all again?  
How long does the high last? Do you know? (Know)

I need you like the sun, sun, sun, sunshine  
Now summer is over (Summer is over)  
Summer is over (Summer is over)  
I need you like the moon, moon, moon, moonlight  
Now summer is over (Summer is over)  
Summer is over (Summer is over, oh-oh, yeah)

Duh-duh-duh  
Dah-duh-duh, duh-duh-duh-duh-duh-duh-duh  
Duh-duh-duh  
Dah-duh-duh, duh-

Got me tired, thinkin' nobody can save me  
You're the price I gotta pray for, that's my baby  
I've been thinking I was better on my own  
Made decisions that would make you wanna hate me (Nah)  
I thought pressure was supposed to makes us diamonds  
Sunshine, crystal waters on these islands  
I remember when everyone so toxic  
I'm sick, got to pretend that it's nothing when-

I see crowds of millions there  
All fucked up with their hands in the air  
Ready just to party like the summertime, and-  
And-  
Maybe our love is a demon unchained  
If it was the same, would you do it all again?  
How long does the high last? Do you know? (Know)

I need you like the sun, sun, sun, sunshine  
Now summer is over (Summer is over)  
Summer is over (Summer is over)  
I need you like the moon, moon, moon, moonlight  
Now summer is over (Summer is over)  
Summer is over (Summer is over, oh-oh, yeah)

What's the point of getting locked in here?  
Was the point to get trapped in here?  
On the road, I made a love song, yeah (Summer is over)  
Why you wanna go somewhere? (Summer is over)  
Now you had me feel lonely  
And I'd rather be doing me  
Now I've stuck around (Summer is over), I know  
(Summer is over)

I need you like the sun, sun, sun, sunshine  
Now summer is over (Summer is over)  
Summer is over (Summer is over)  
I need you like the moon, moon, moon, moonlight  
Now summer is over (Summer is over)  
Summer is over (Summer is over, oh-oh, yeah)

Duh-duh-duh  
Dah-duh-duh, duh-duh-duh-duh
