

## Public Enemy

KSS

I am the enemy of human society  
nobody understands me  
I am the enemy of your dirty conscience  
so nobody likes me

everybody cares  
but nobody likes me openly  
give me something else  
I wanna live differently  
I will never understand  
What do you think of me  
It's so fuckin' lie  
and Im sure I will die

I'm looking at myself  
in the broken mirror  
I'm looking to my soul  
and I see the terror  
terror which makes me smile  
It did, it does, it will  
loving makes me cry  
so tell me what you feel
