

Down In The Valley

K.T. Oslin

You know I'm down in the valley
In the valley so low
Gonna hang my head over
Just to hear the wind blow

Hear the wind blowing
Hear the wind blow
Hang you head over
Just hear the wind blow

You know the roses love sunshine
The purdy violets love the dew
The angels in Heaven
They know I love you

I'm gonna build me a tower
Build it 40 feet high
So could lean out the window
Just to see you riding by

I'm down in the valley
The valley and I'm feeling low
I'm gonna hang my head over
Just to hear the wind blow

I'm down in the valley
In the valley feeling low
Gonna hang my head over
Just to hear the wind blow
