

New Way Home

K.T. Oslin

Slowly I'm healin'
Broken hearts take a little time
Now that I'm feelin' stronger
Time I changed one last pattern of mine

I have to find
Me a new way home
I can't be drivin' by your house no more
How's that old sayin' go
You better leave well enough alone
And find a new way home
I have to find a new way home
I have to find a new way home

Have to drive an extra mile or two
What else can I do
I don't want to see
Cause someday I'll see
Somethin' I don't want to see
And it'll only break my heart all over again
Can't afford it my friend
This'll have to end
It's the only heart I got
And it needs a little more time to mend

I have to find
Me a new way home
I can't be drivin' by your house no more
How's that old sayin' go
You better leave well enough alone
And find a new way home
I have to find a new way home
I have to find a new way home

I have to find a new way home
Gotta find it
I have to find a new way home
Gotta find it
