I take myself to that area  
I'm aware that it's gonna get scarier  
Can't promise that I'm gonna take care o ya  
Gotta look out for myself

Who is a keeper, who's a carrier?  
I knew I was up against a barrier  
I know I get free of hysteria  
If I look out for myself

Only attracted by attraction  
Hold me, hold me now  
Slowly quiet satisfaction  
Folding beautifully out

Leaving an easy low vibration  
I'm seeing a brand-new relation  
Between me and the deep Mother One  
It's right beneath my feet

Looking in a mirror at a creation  
Considering a new variation  
Of how it handles salvation  
And stays upon her feet

Only attracted by attraction  
Hold me, hold me now  
Slowly quiet satisfaction  
Folding beautifully out
