

# Other Side of the World

Kt Tunstall

**G** **F**  
Over the sea and far away  
**G**  
She's waiting like an iceberg  
**F**  
Waiting to change  
**G**  
But she's cold inside  
**F**  
She wants to be like the water  
**G** **F** **G**  
All the muscles tighten in her face  
**F** **G**  
Buries her soul in one embrace  
**G**  
They're one and the same  
**F**  
Just like water

**C** **Ami**  
And the fire fades away  
**F**  
Most of everyday  
**G**  
Is full of tired excuses  
**C**  
But it's too hard to say  
**Ami**  
I wish it were simple  
**F**  
But we give up easily  
**G**  
You're close enough to see that  
ami **G** **F** **G**  
You're the other side of the world to me

**G** **F**  
On comes the panic light  
**G** **F**  
Holding on with fingers and feelings alike  
**F**  
But the time has come  
**F**  
To move along  
  
And the fire fades away...

**Dmi**  
Can you help me?  
**F** **C**  
Can you let me go?  
**Dmi**  
And can you still love me  
**F** **G**  
When you can't see me anymore?

The fire fades away...
