

Throw Down Boy

Kt Tunstall

I could have kicked your door in but I didn't
I could have fought til morning but I didn't
You gave me all the warnings that I shouldn't
But that don't always work as a deterrent

Promise always to my heart be true
You came at me
A bolt out of the blue

All the time
That I thought love was mine
Meanwhile I died inside
Little by little every day
You were the one I needed
With one difference indeed
You got the throw down boy
Gentle and sweet
But still a throw down boy
Off my feet
Yeah, you're the throw down boy
And baby, I love you

Sometimes I find you're choosing not to listen to me
And when you talk I'm dreaming of you kissing me
But now I realize I'm really feeling
You got the one thing I was always missing

Promise always to my heart be true
You came at me
A bolt out of the blue

All the time
That I thought love was mine
Meanwhile I died inside
Little by little every day
You were the one I needed
With one difference indeed
You got the throw down boy
Gentle and sweet
But still a throw down boy
Off my feet
Yeah, you're the throw down boy
And baby, I love you...
