So many problems on my mind
All of my life me, ah dey grind

But me ah no dey find what no be mine
They say no pain no gain
Yet I dey feel pain but no gain
Last night was a foreplay
So they carry my matter and put am for suitcase
But sometimes I want to come through

Favorite song Alexa confuse
One two I buckle my shoe
People no dey care what the hell you've been through
I love my space
So I no send you make you help me choose my fate
Make you no dey come dey looki face
Oh-oh-oh-oh-oh

So if they come like a vampire ('pire)
We go pull with a hot fire (fire)
Dem go do them go run tire (tire)
'Cause we dey like a black panther (panther)
So if they come like a vampire ('pire)
We go pull with a hot fire (fire)

One man I dey my own
I keep it on the low
Charley you for know
Not every royal family member go get to the throne
Yeah, yeah, yeah
Way ahead of the game
Part of what I became
Still baddest kid in Africa put respect on my name
Still your boy till today
Me de ma mo buffet

All de all night I dey in your face
I never think sey I never talk sey
I know pass everyone
But when reality strikes

Out of my space

Make you no dey come dey looki face
Oh-oh-oh-oh-oh
