

Never Carry Last

Kuami Eugene

They try to pull me down
But still the boy is going high
In the name of Jehovah
I know them all go shy
Showing them something they don't know
We started Adowa to Azonto
Kokobonko, Every Corn dough
Na we shaku shaku for Zongo

Never dey carry last
Never dey carry last
Never ever ever ever
Never dey carry last

Never dey carry last
Never dey carry last
Never ever ever ever
Never dey carry last

But eno easy
Right now I be counting my money solo

Them be telling me this
But I no send them
Because my credit don't finish for phone
There are sometimes like this
I cry for this
Way anybody no go fight for me
Now you sure for me and Kuami Eugene
Angela no evil fii die for this
If you throw me stones
I go rock with it
Throw me bomb
And I blow with it
Definitely good company
I can be that king in another
Man city oh yeah

They try to pull me down
But still the boy is going high
In the name of Jehovah
I know them all go shy
Showing them something they don't know
We started Adowa to Azonto
Kokobonko, Every Corn dough
Na we shaku shaku for Zongo
