

My Love

Kuba Oms

I wanna be your man,
Your lover and your friend
I'm gonna love you true,
I wanna be the one
You come home to.

It was friday night
the moon was bright
and the band was tight
and I was flying
when I met you.

You didn't seem to mind
spending your time
with this crazy guy
who's eyes were wide
open for you.

For a time we had it good,
I did the best I could,
till I lost you on the way,
You stood up for yourself
had to put us on the shelf
for another day

And I'll find some peace, this time
I'll let you know we gonna grow
I'm gonna show you my heart and soul
This time this time my love

I wanna be your man,
Your lover and your friend
I'm gonna love you true,
I wanna be the one
You come home to.
I'm gonna treat you right,
I'll do you every night my love

I'm feeling small when
I make a call full of alcohol
And then there's dead air on the phone with you,
With my disguise I didn't realize when
I was hurting, that I was hurting you too

So when I lost my way,
couldn't think of what to say,
I watched us fall apart
There's an opportunity
It's here for you and me,
to make another start

And I'll find some peace, this time
I'll let you know we gonna grow
I'm gonna show you my heart and soul
This time this time my love

I wanna be your man,

Your lover and your friend
I'm gonna love you true,
I wanna be the one
You come home to.
I'm gonna treat you right,
I'll do you every night my love

We need to find a way,
I need to follow through,
I need to find the faith,
to help us make it through,
make it through

Hold on to my heart,
and my heart will carry you,
will carry you and never let you go.
Hold on to my heart,
and my heart will carry you

I wanna be your man,
Your lover and your friend
I'm gonna love you true,
I wanna be the one
You come home to.
I'm gonna treat you right,
I'll do you every night my love (2x)
