

## Still Here

Kublai Khan

Something on my side  
Built me up  
And gave me pride  
Helped me cope  
Helped me survive  
A choice in life  
Helped me define  
Myself in time  
Of both body and mind  
How you live is  
Your choice  
I hold this close  
To me  
I know its hard enough as it is  
Trying to motion through every day bullshit  
Growing up fast  
Seeing my  
Mother fall helplessly victim to  
Substance abuse  
Fuck  
If I'll ever become that  
A better life better chance  
Better plan  
Still learning  
Still listening  
Still searching  
For my myself  
I know it's hard enough as it is  
Trying to motion through every day bullshit  
I know it's hard enough as it is  
Trying to motion through every day bullshit  
This is for us, the few left  
The ones still standing. Fuck what they think  
Still here. Still clean.  
For Susan Griffith, eating pills  
My brother Shawn, a drunk driver killed  
In this life  
My choice remains the same  
Forever unchanged
