

Generation XYZ

KUČKA

Things I wanna hear you say
While I believe there's a chance I was naïve, I thought
I have myself to blame
But you took me outside and told me all about the world

Told me 'bout the miracles
Told me they were right outside
Told me to be fearless
But if they scare you just look deep into their eyes, eyes

I told you I never get it right
Not trying to live up to your high
I listen, I think of your advice
But it's not life

I told you I never get it right
Not trying to live up to your high
I listen, I think of your advice
But it's not life

Told me 'bout the miracles
Told me they were right outside
Told me to be fearless
But if they scare you just look deep into their eyes, eyes
