

# Heaven

KUČKA

If I could be dropped into your maze  
I'd be stuck with you for days  
Intricate the pieces to arrange  
You puzzle me  
Now you know the truth it's my confession  
You can use me as your weapon  
Tie me up just like a present  
You are to me

Nothing to forget just a moment  
Nothing but our sweat and our own skin  
We don't need a week on an island  
Never really cared for a million  
Million  
Million  
Millio-

All I ever wanted was you  
All I ever wanted was you  
All I ever wanted was you  
All I ever wanted was you

I wanna take you to heaven  
I wanna take you to heaven  
I wanna take you to heaven  
I wanna take you to heaven

Mirror me in sync as we move in  
Yeah, I like your dress now remove it  
We don't need a week in a hotel  
Never really cared for a million  
Million  
Million  
Millio-

All I ever wanted was you  
All I ever wanted was you

I wanna take you to heaven  
I wanna take you to heaven
