

Not There

KUČKA

Said to me the night's so cold
I don't wanna drive you home
Stay with me a little bit longer
Pull me in a little bit closer
Tell me 'bout the thoughts you wrote
Tell me 'bout a heart you broke
Yeah you had a lot to get over
Carrying the world on your shoulders

There's a craving in my bones
A subtle aching
When you're not there, when you're not there
There's a craving in my bones
When you're not there, when you're not there
When you're not there, when you're not there

Taken every road I know
Nothing really felt my own
Yeah you got a little bit older
Time didn't heal like they told you
Telling me you can't relax
Saying how you want it bad
Something you revealed to me only
You know what it's like to be lonely

There's a craving in my bones
A subtle aching
When you're not there, when you're not there
There's a craving in my bones
When you're not there, when you're not there

Lay with me, savouring
Softening the spaces between
Meet me in the places we dream
I know you better there
You show me everything you couldn't share

There's a craving in my bones
A subtle aching
When you're not there, when you're not there
There's a craving in my bones
When you're not there, when you're not there
When you're not there, when you're not there
When you're not there, when you're not there
