

Sky Brown

KUČKA

No, I'm not as old as you but I can tell you about it
When I'm finding it hard I'll work it through and we can figure
it out
And I'm serious when I need to be about a hundred percent
And I'm not gonna get too comfortable, I know I'll fall down ag
ain

But I'll get right up
I'm not afraid, I told you that I work hard
You just call my name
Because you're pushing me on
And I'll get right up
I'll find another way to stand
Calling me crazy but I made it this far
I just need your hand and some advice
You make me want to get right up

Pointless in telling me, in telling me that I can't lead the wa
y
Tell me that it's fine to take a knock hard
Tell me that it's fine to make a mistake
'Cause innocent teeth are hard to break
Gotta wear them out
Trying not to let distractions pull hard
Trying not to let them get to me
That's when they pull me down, pull me down, oh
When I let them pull me down, pull me down, oh

But I'll get right up
I'm not afraid, I told you that I work hard
You just call my name
Because you're pushing me on
And I'll get right up
I'll find another way to stand
Calling me crazy but I made it this far
I just need your hand and some advice
You make me want to get right up

Right up
I'm not afraid, I told you that I work hard
You just call my name
Because you're pushing me on
And I'll get right up
I'll find another way to stand
You're calling me crazy but I made it this far
I just need your hand and some advice
You make me want to get right up
