

## Your World

KUČKA

What's it gonna be?  
We got one of two chances  
Do you wanna meet?  
Maybe we could be alone  
Accidentally  
No, we never had planned it  
Suddenly, somethin' was on  
Didn't wanna wait  
'Cause I couldn't resist it  
And I wanted to  
Wanted to stay with you  
You don't wanna hear  
Let me give you the answer  
No, we never got it wrong

I want you to hold me  
Girl, I want you to show me how I make you feel  
Better get to me slowly  
Make me feel like the only one who ever existed in your world

Your world, your world  
Your world, your  
Your world, your world  
Your world  
Your world, your world  
Your world, your  
Your world, your world  
Your world

Time is passing by  
No room to be unsure  
Never this right, never this easy  
Never this good before  
Didn't even waste my time  
Asked my needs, blew my mind  
Shapes under the lights behind  
Is it real? (Surreal)  
Had me with my game unlocked  
Makeup off  
Saw me, baby, with one look  
This is me, this is me

And you know I've been patient  
Luxury, I couldn't waste it  
Trust you know it's true  
I couldn't fake it, no  
Since day one, we never ever slowed down

I want you to hold me  
Girl, I want you to show me how I make you feel  
Better get to me slowly  
Make me feel like the only one who ever existed in your world  
Hold, hold me  
Girl, I want you to show me how I make you feel  
Better get to me slowly  
Make me feel like the only one who ever existed in your world

Your world, your world  
Your world, your  
Your world, your world  
Your world  
Your world, your world  
Your world, your  
Your world, your world  
Your world

Your world, your world  
Your world, your
